

Colorado State University

Team: SNOW

Date: 9/29/23

Attendance:

- ☒ Whole Team Present
☐ Members Missing

Meeting:

- ☒ PDR
☐ CDR

Missing Senior Design Students, if any:

N/A

EiR Mentor: Richard Toftness

EiR Signature:

EiR mentor's recommendation for future steps:

(to be filled-in by mentor) – continue writing/typing on the back, if needed

- continue defining project plan, be more specific
- talk with fluids professors, find more people, literature, resources to ask
- fiber connections, strip overhead (resize images)
- look at commercial model (what is good about it) for help on new designs
- figure out what we want accomplished by the end of the year, leave a "better legacy" than groups before, keep improving

Tell us what you think about the meeting:

(to be filled-in by the team after the meeting)

- helpful to talk to someone new about the project
- he seemed interested in the work and gave helpful tips
- he offered good ideas for research throughout the project

*EiR Mentor to fill-in the form and email back to the Team.
Team will be uploading this form to Canvas by the specified date.*
