Richard Toftness

R.T. Toftness

EiR mentor's recommendation for future steps:

(to be filled-in by mentor) – continue writing/typing on the back, if needed

- measure the response of the LED drivers
- look into someone else to help with DPM
- continue to look through settings, ask ANSYS
- fans on the bottom of chamber, contour inside of chamber
- think through lens with operation vs clarity
- gave info on what to look for in the cameras to determine if they are suitable

Tell us what you think about the meeting:

(to be filled-in by the team after the meeting)

- he was enthused with our progress which was nice, reminded us these were difficult problems so don't be too bummed if we don't have the best answer, gave me a bit more confidence
- helped give info for troubleshooting problems
- he was very kind and motivated us
- he was very helpful in choosing a camera

*EiR Mentor to fill-in the form and email back to the Team.
Team will be uploading this form to Canvas by the specified date.*
